

Department of Computer Engineering

Academic Year: 2020-2021

Semester: I

Course Name: Computer Network

Class: TE

Name of the Faculty: Mr. S.T.Datir

Method: Crossword Activity

Description:

Cross word is an effective method to summarize the concepts taught in the class and understood by students. It consists of vertical and horizontal words.

Impacts:

This activity could be linked to reading comprehension by having students highlight or identify words in their text book reading that they do not know or that they think are important, and later having them define these words using the crossword puzzle format. Also the goal of Creating Crossword Puzzles is to Engaging Students with Content Area.

Note: For Feedback please email me at datir.sunil@kbtcoe.org
